Manila visits, 2025

What is in this file

220 dated visits from Jan 03, 2025 to Dec 18, 2025 (January–December). Source: 2025-manila-visit_raw-final.xlsx. One row is one logged visit. Repeat accounts are counted once per visit, not collapsed to one client.

Fields that were blank

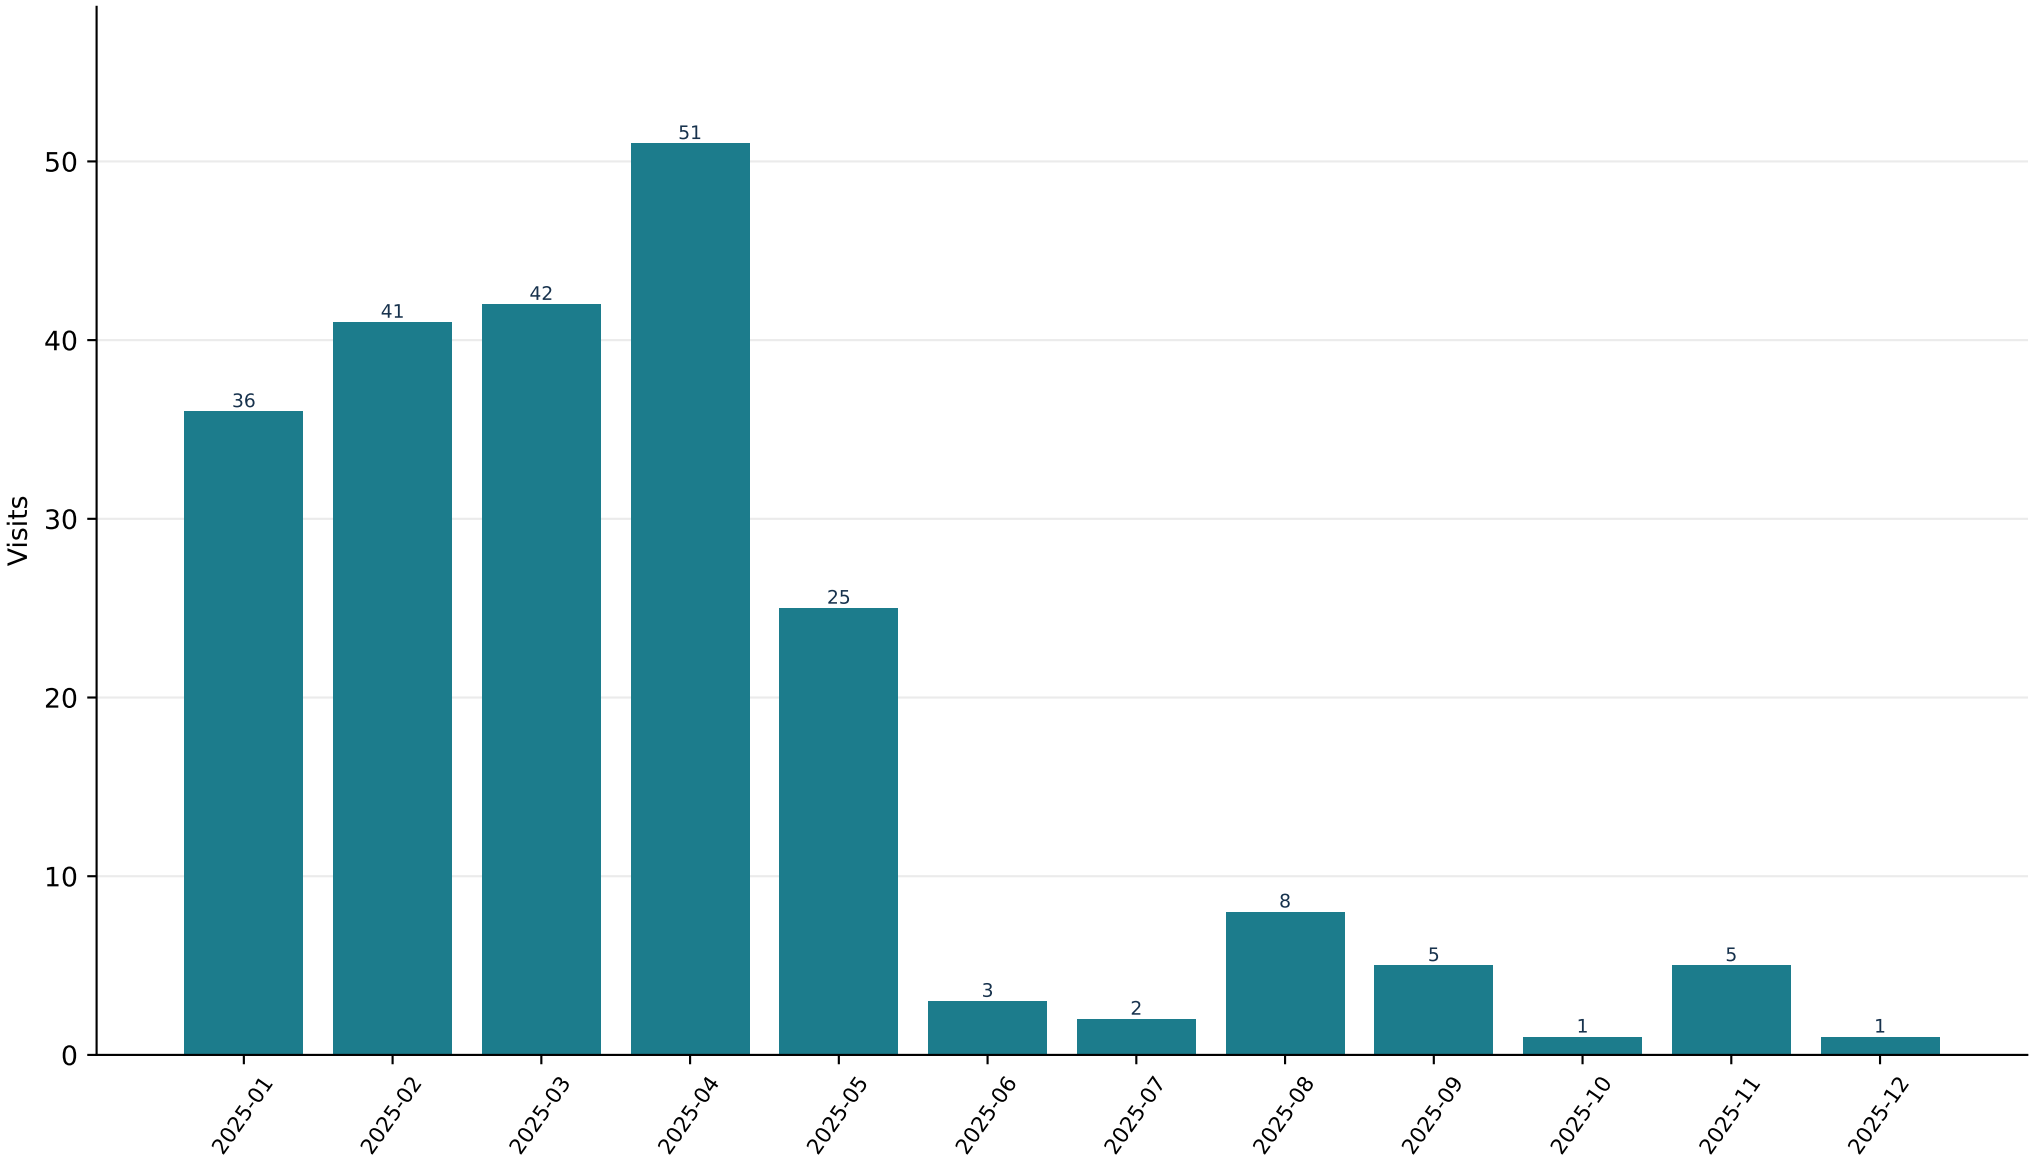

77 visits have no classified workflow. 10 visits have no classified solution topic. 136 visits have no challenge note, and 20 challenge notes matched no theme. 1 visits have no country. Those rows stay in the visit total and are omitted from the theme charts.

How to read the charts

Demonstration type, country, region, role, and product charts count each visit once. Workflow, solution, challenge, and demonstration-category charts can count a visit in more than one bar. The companion CSV lists every category, including notes that matched no rule.

Monthly visits

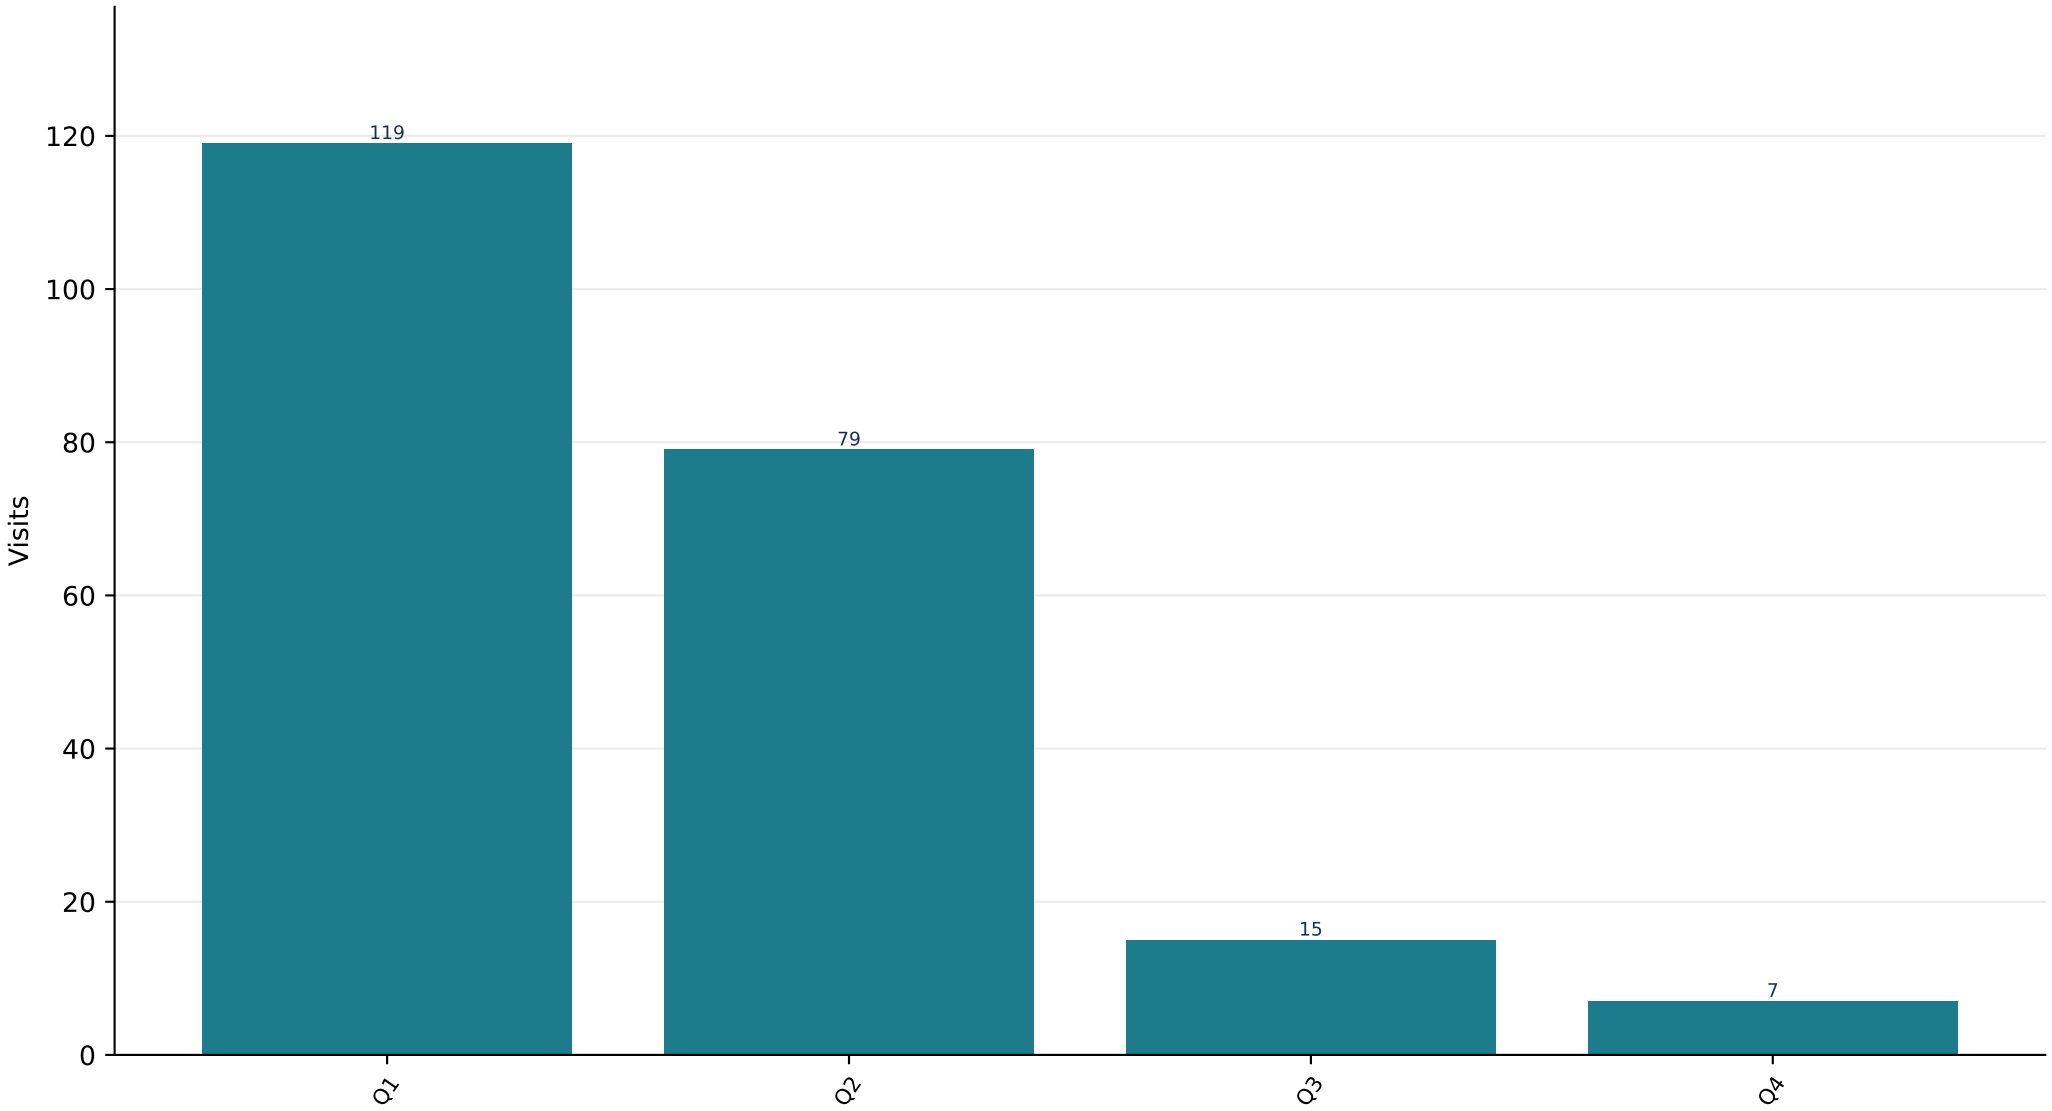

Months with no visits are omitted. They are not shown as zero.

Quarterly visits

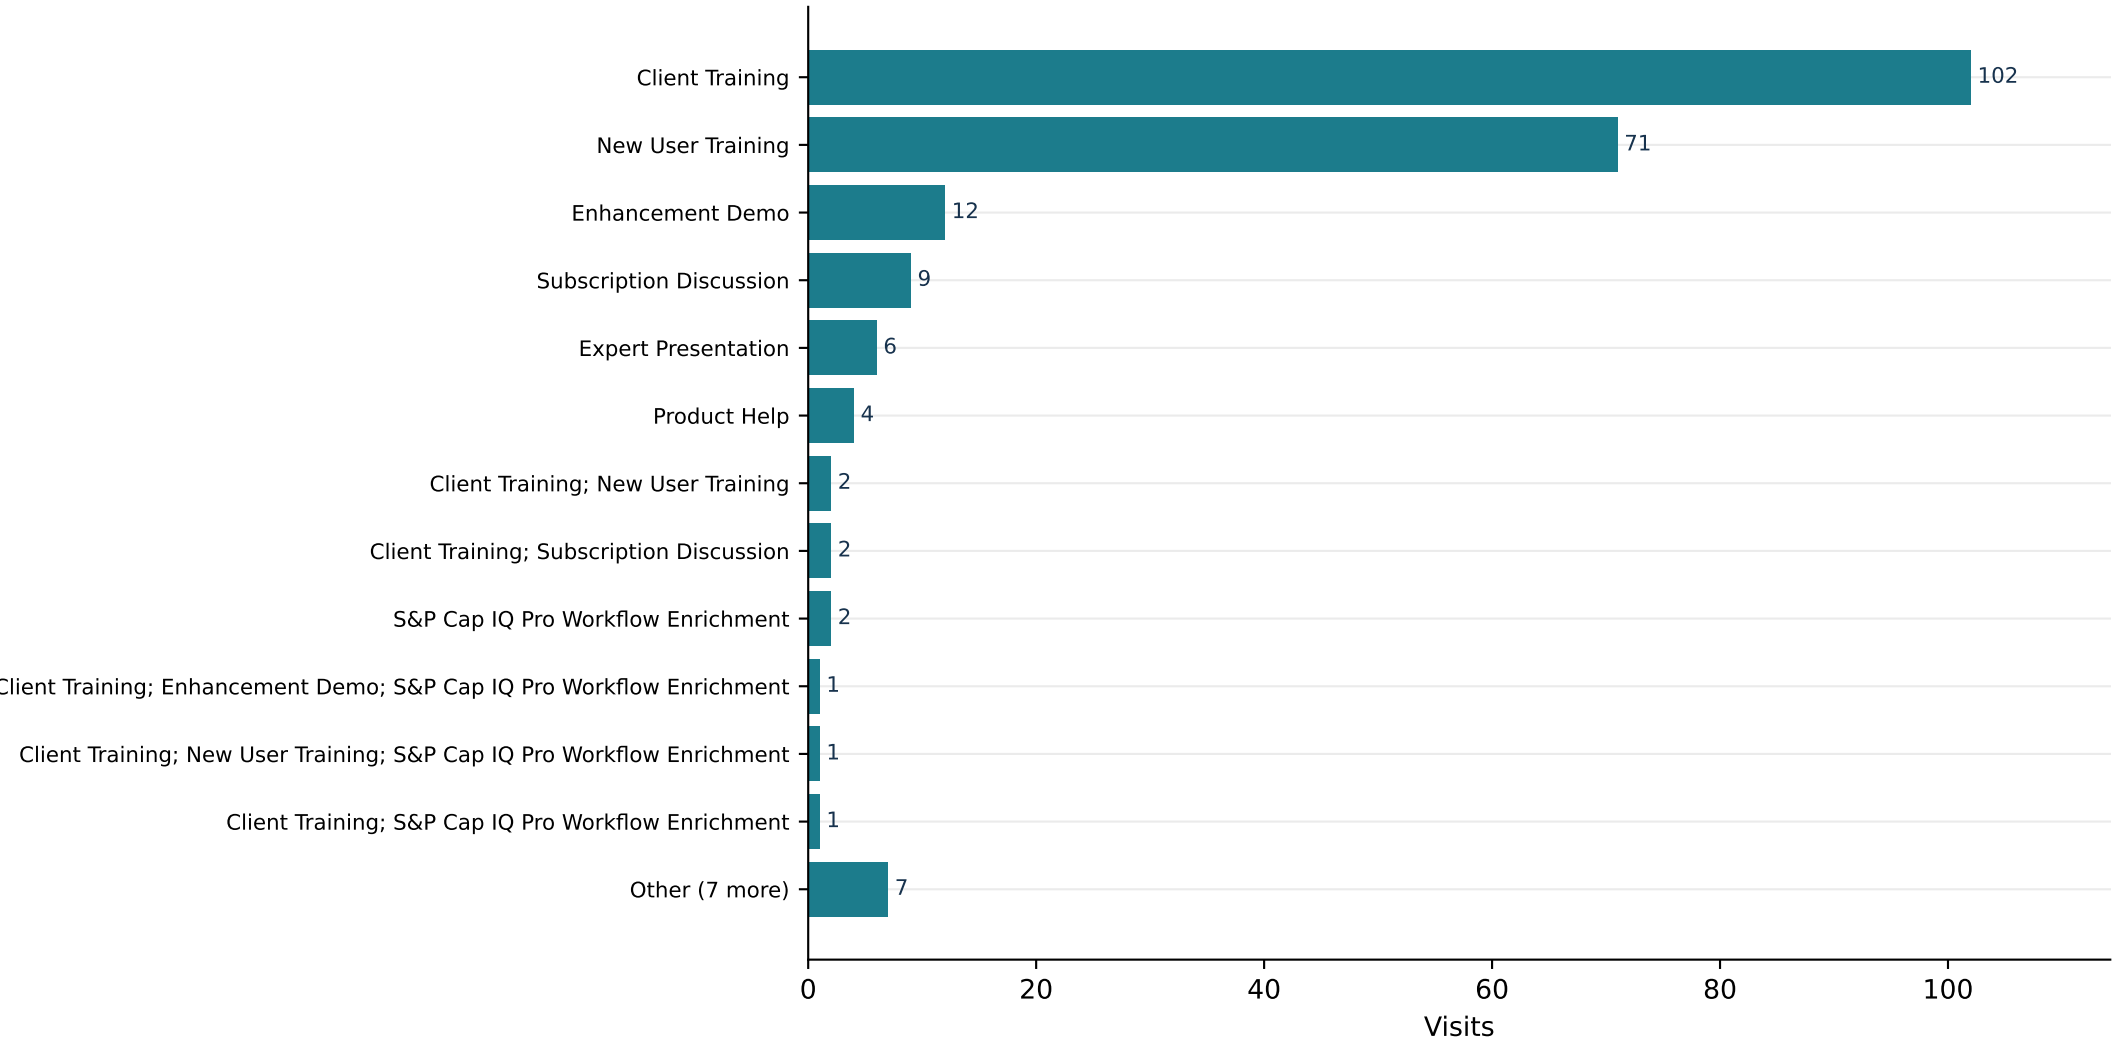

Quarters with no visits are omitted. A partial year will not show later quarters.

Source: Manila visit workbooks. Counts follow the field named on each page.

Demonstration type

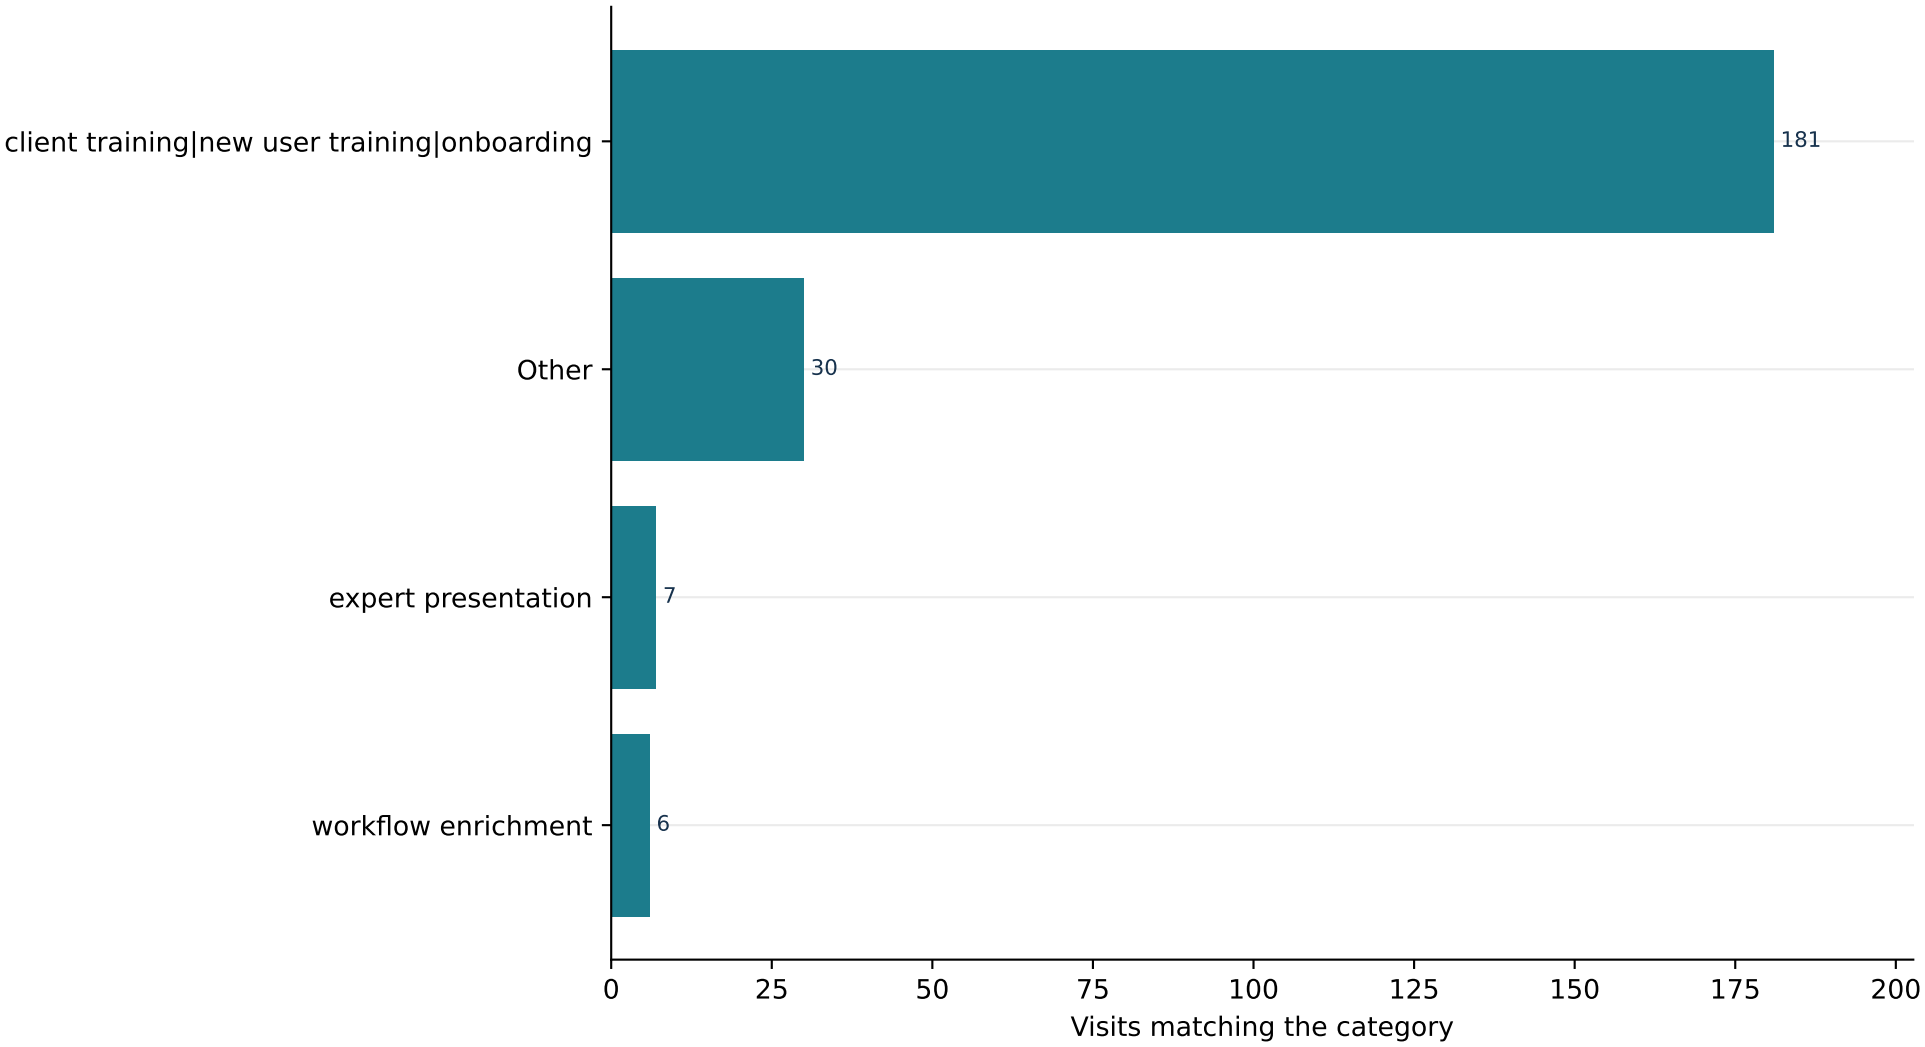

Exact Demonstration Type values. Combined selections are kept as written and are not split.

Source: Manila visit workbooks. Counts follow the field named on each page.

Demonstration category

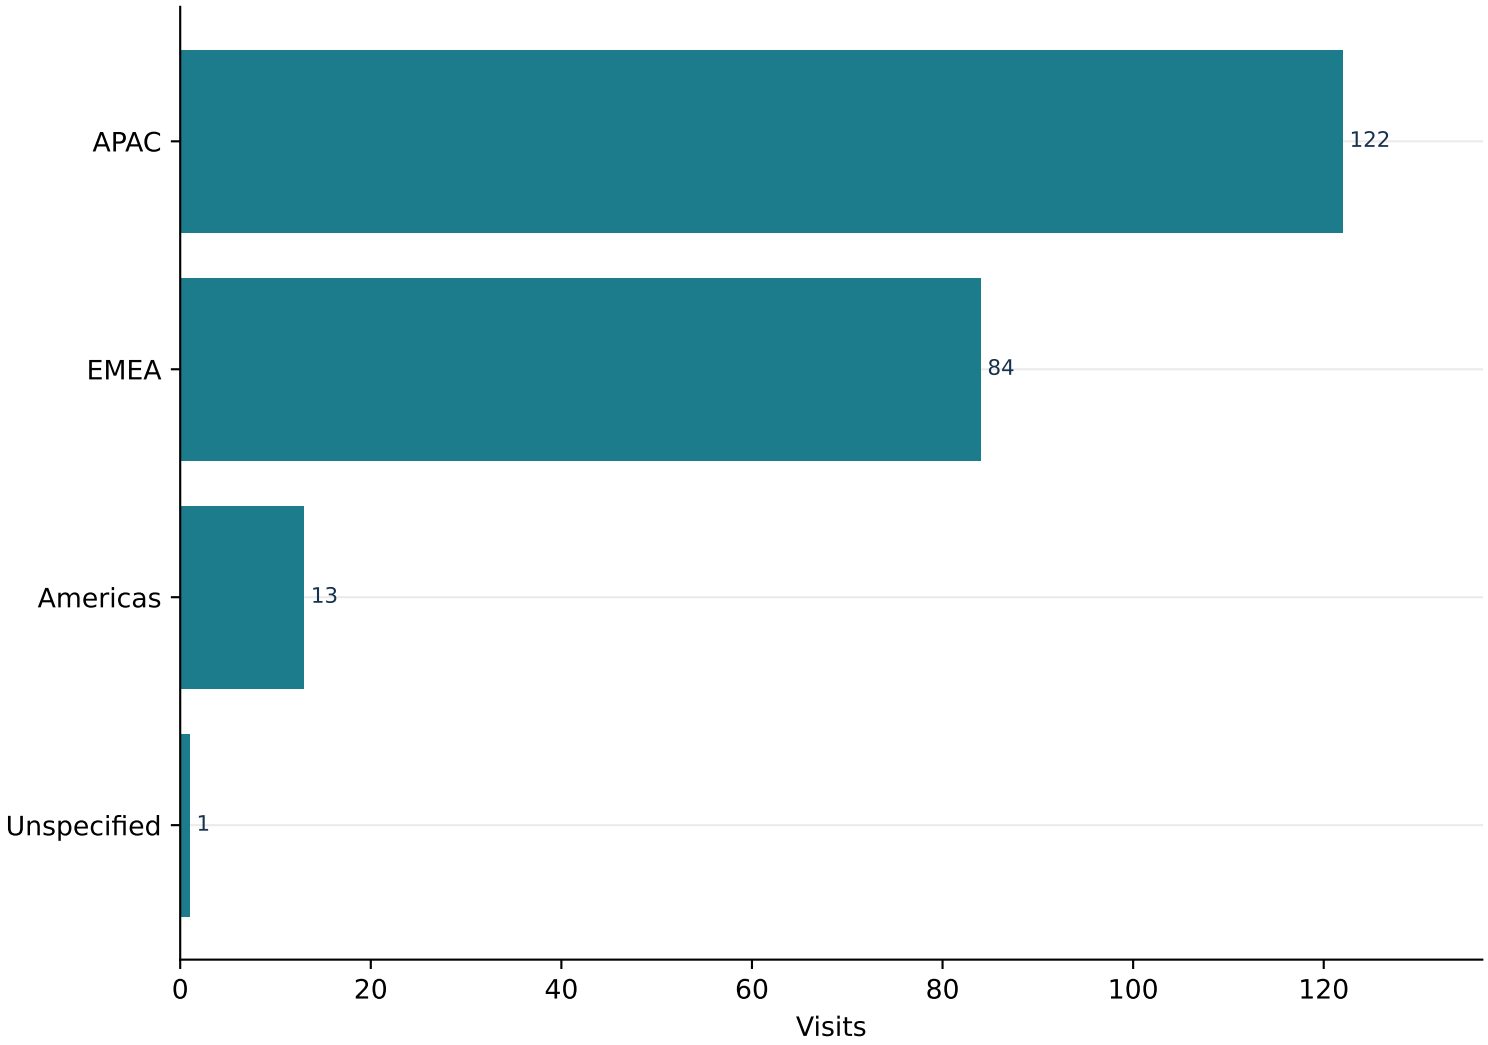

Regex groups of Demonstration Type. A visit with two types is counted in both bars, so the bars can add up to more than the visit total.

Client region

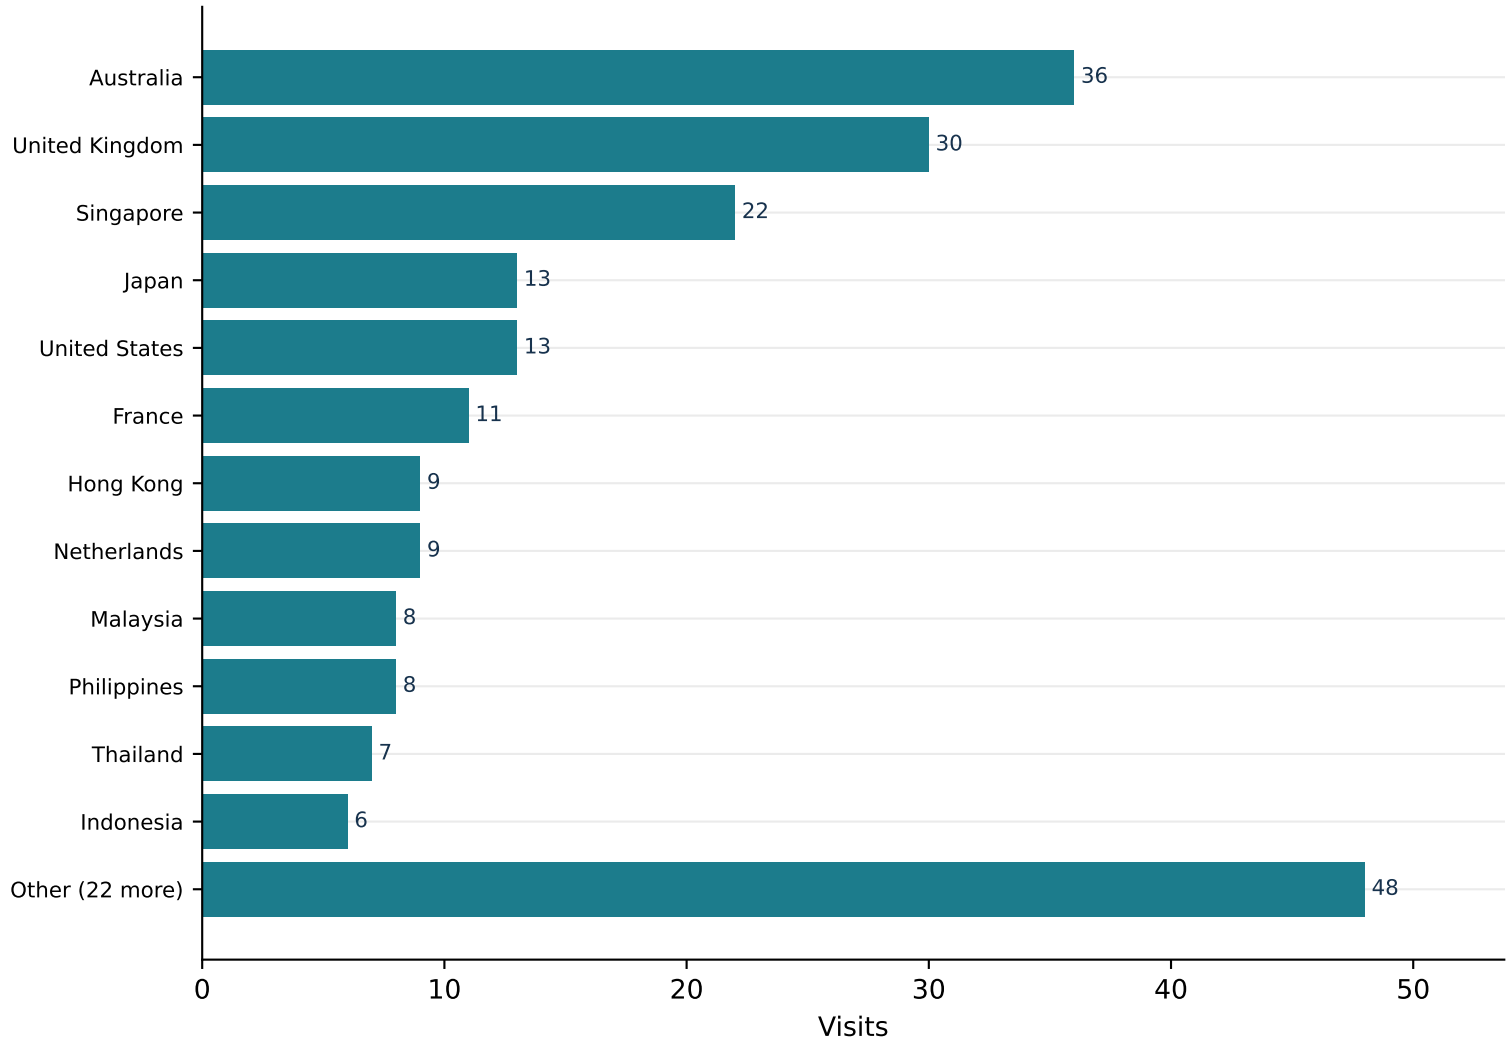

Country is mapped to APAC, EMEA, or Americas. Blank or unmapped countries are Unspecified. Blank country: 1 visits.

Source: Manila visit workbooks. Counts follow the field named on each page.

Client country

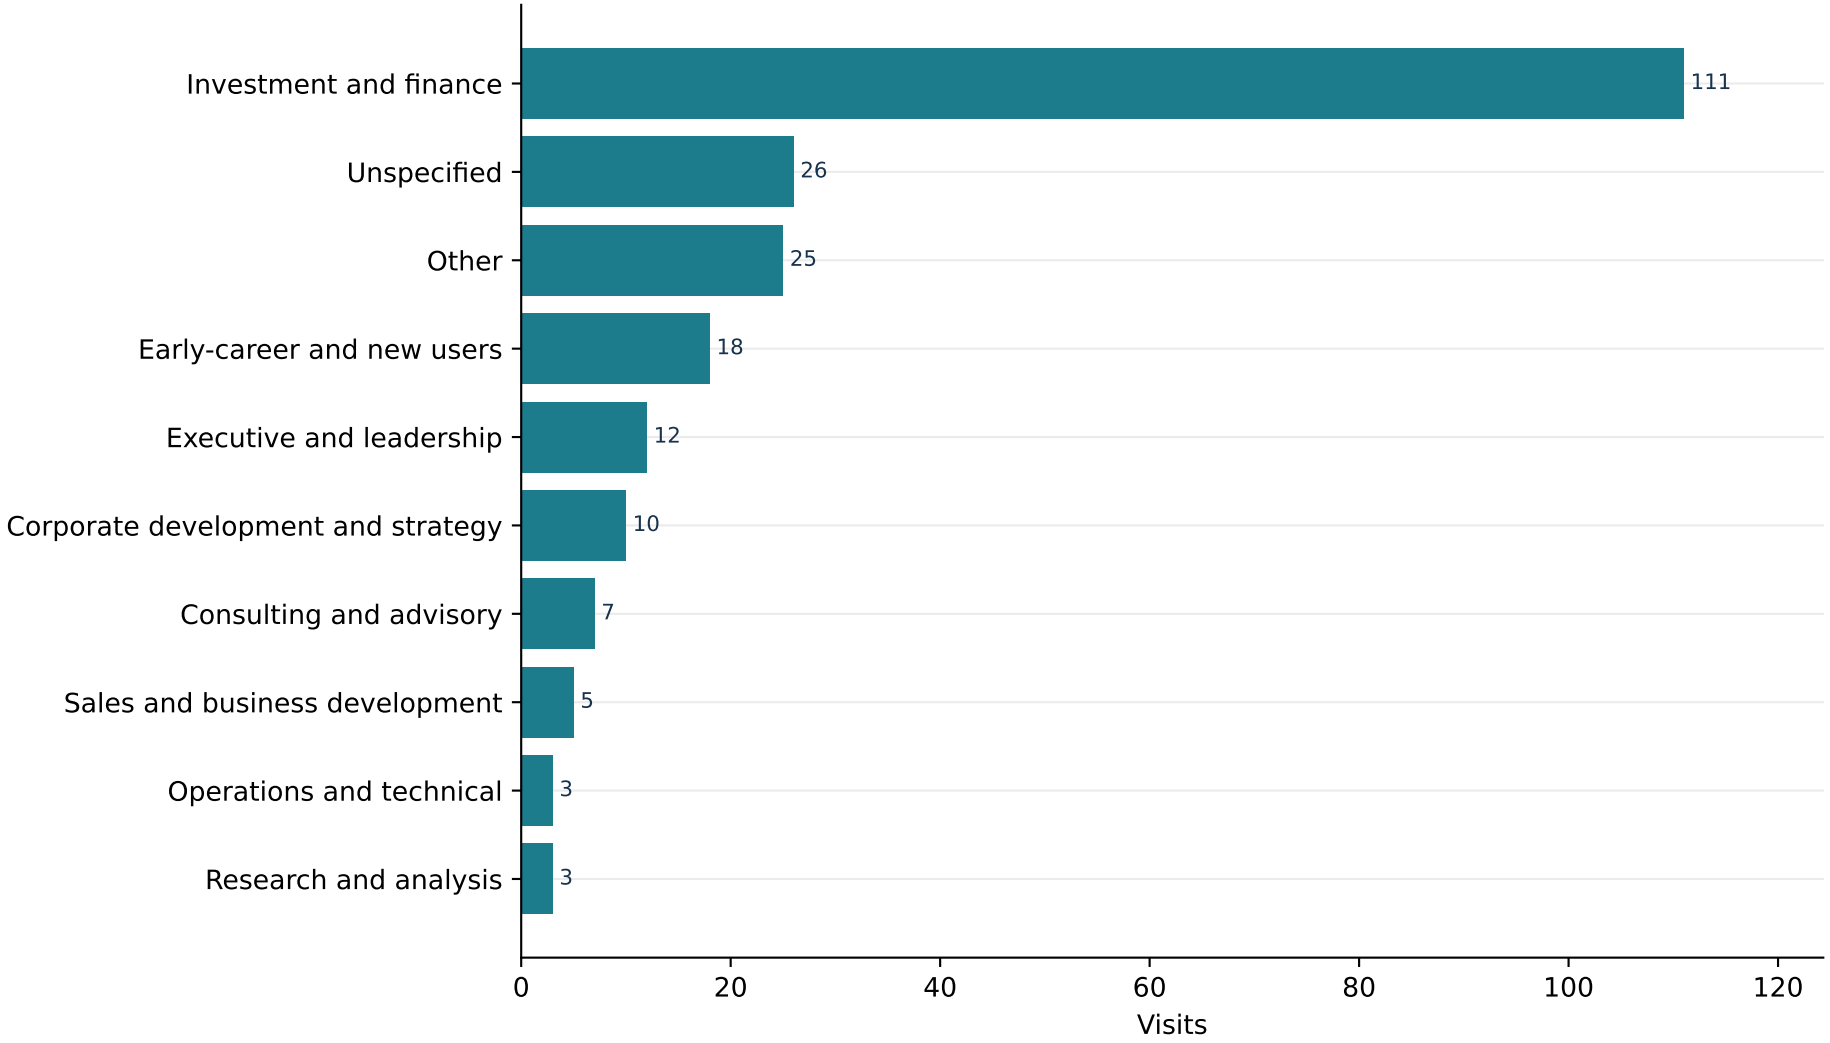

Top countries by visits. 1 visits have no country and are labeled Unspecified. The summary lists every country.

Source: Manila visit workbooks. Counts follow the field named on each page.

Client role

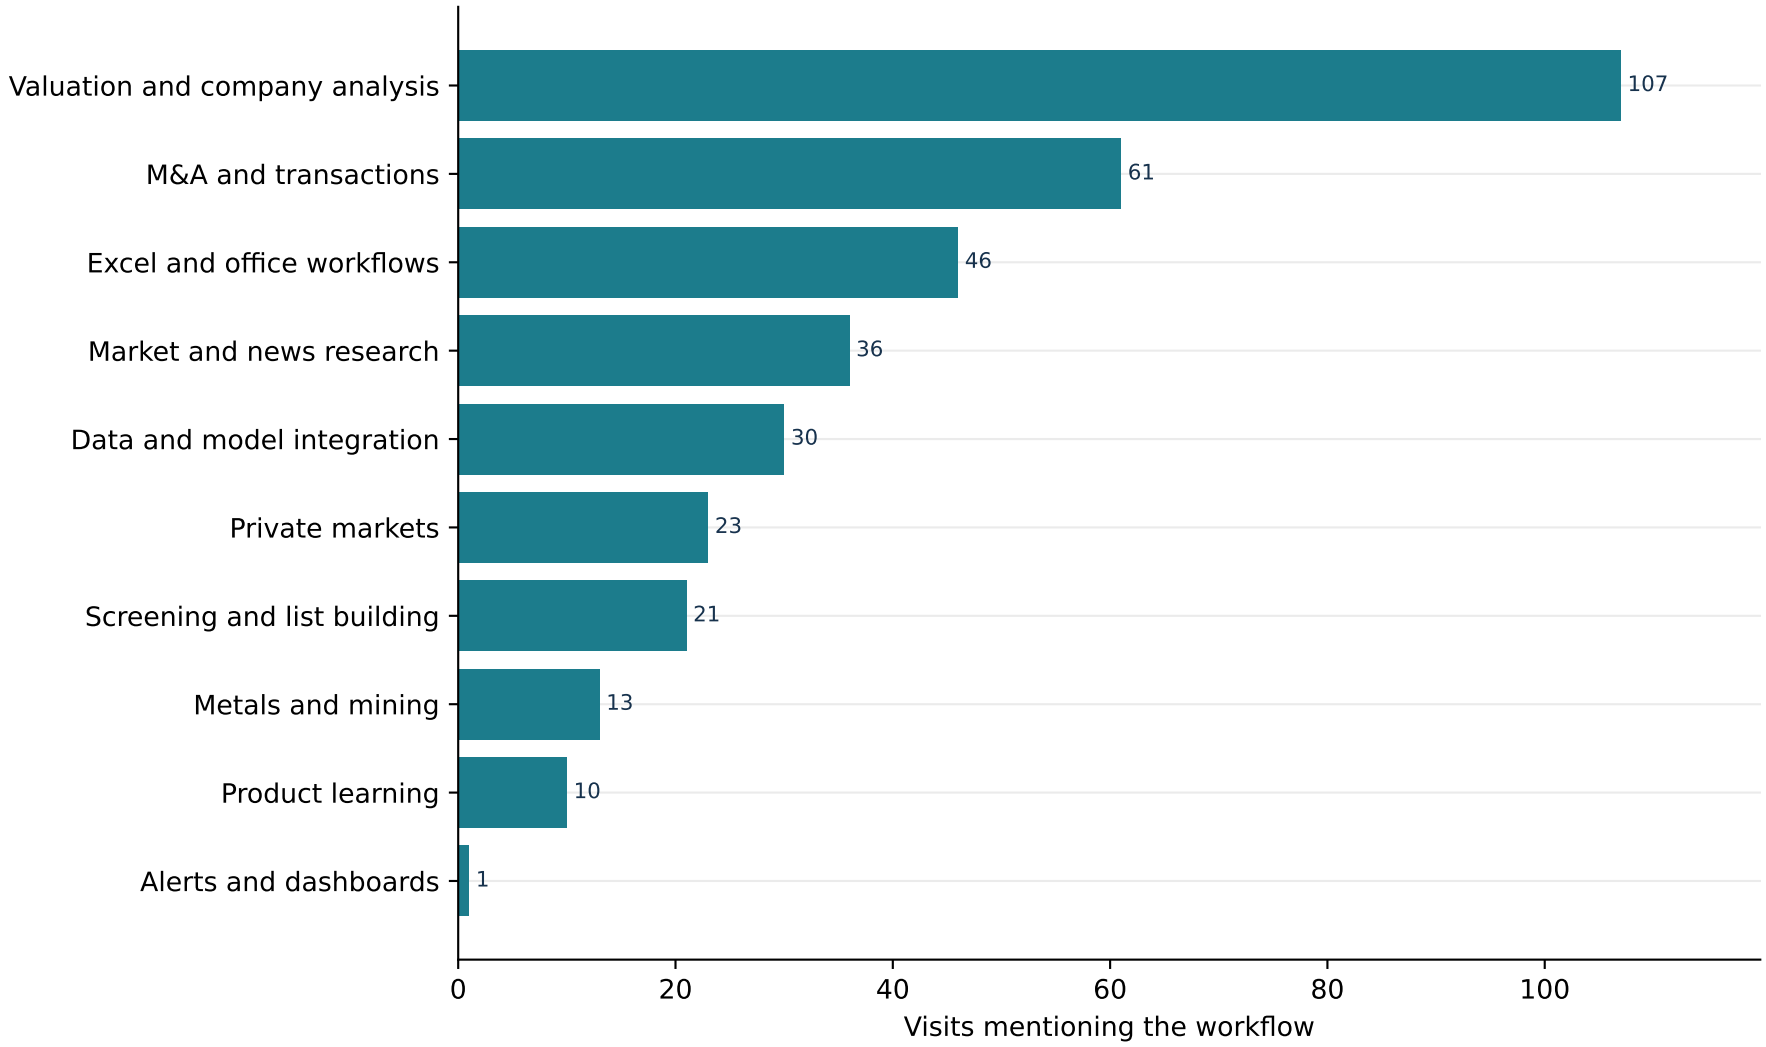

Taken only from Team/User Job Description. Other means the note did not match a role rule. Unspecified means the field was blank. Other is 25 (11%) and Unspecified is 26 (12%).

Key workflows

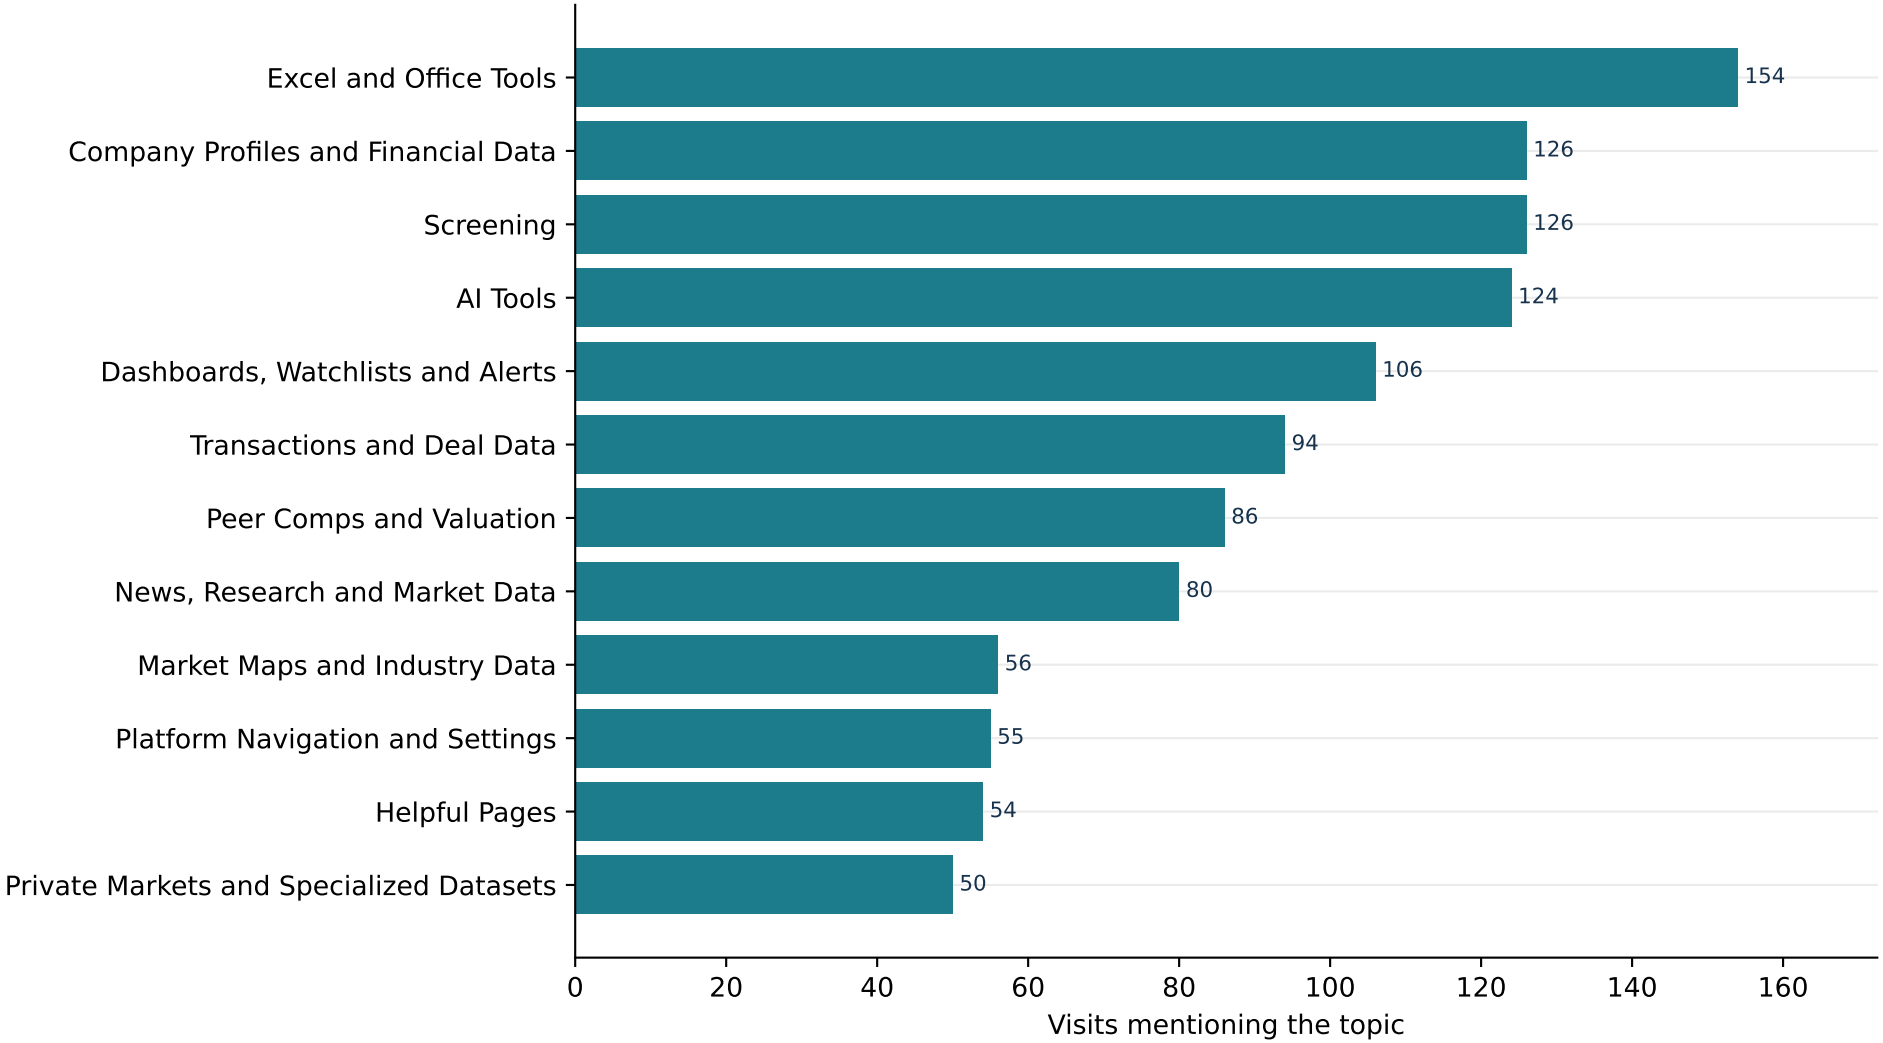

Classified from Key Workflows, or from Meeting Notes when that field is empty. 77 of 220 visits have no classified workflow and are not in the bars. A visit can appear in more than one bar.

Source: Manila visit workbooks. Counts follow the field named on each page.

Solution topics

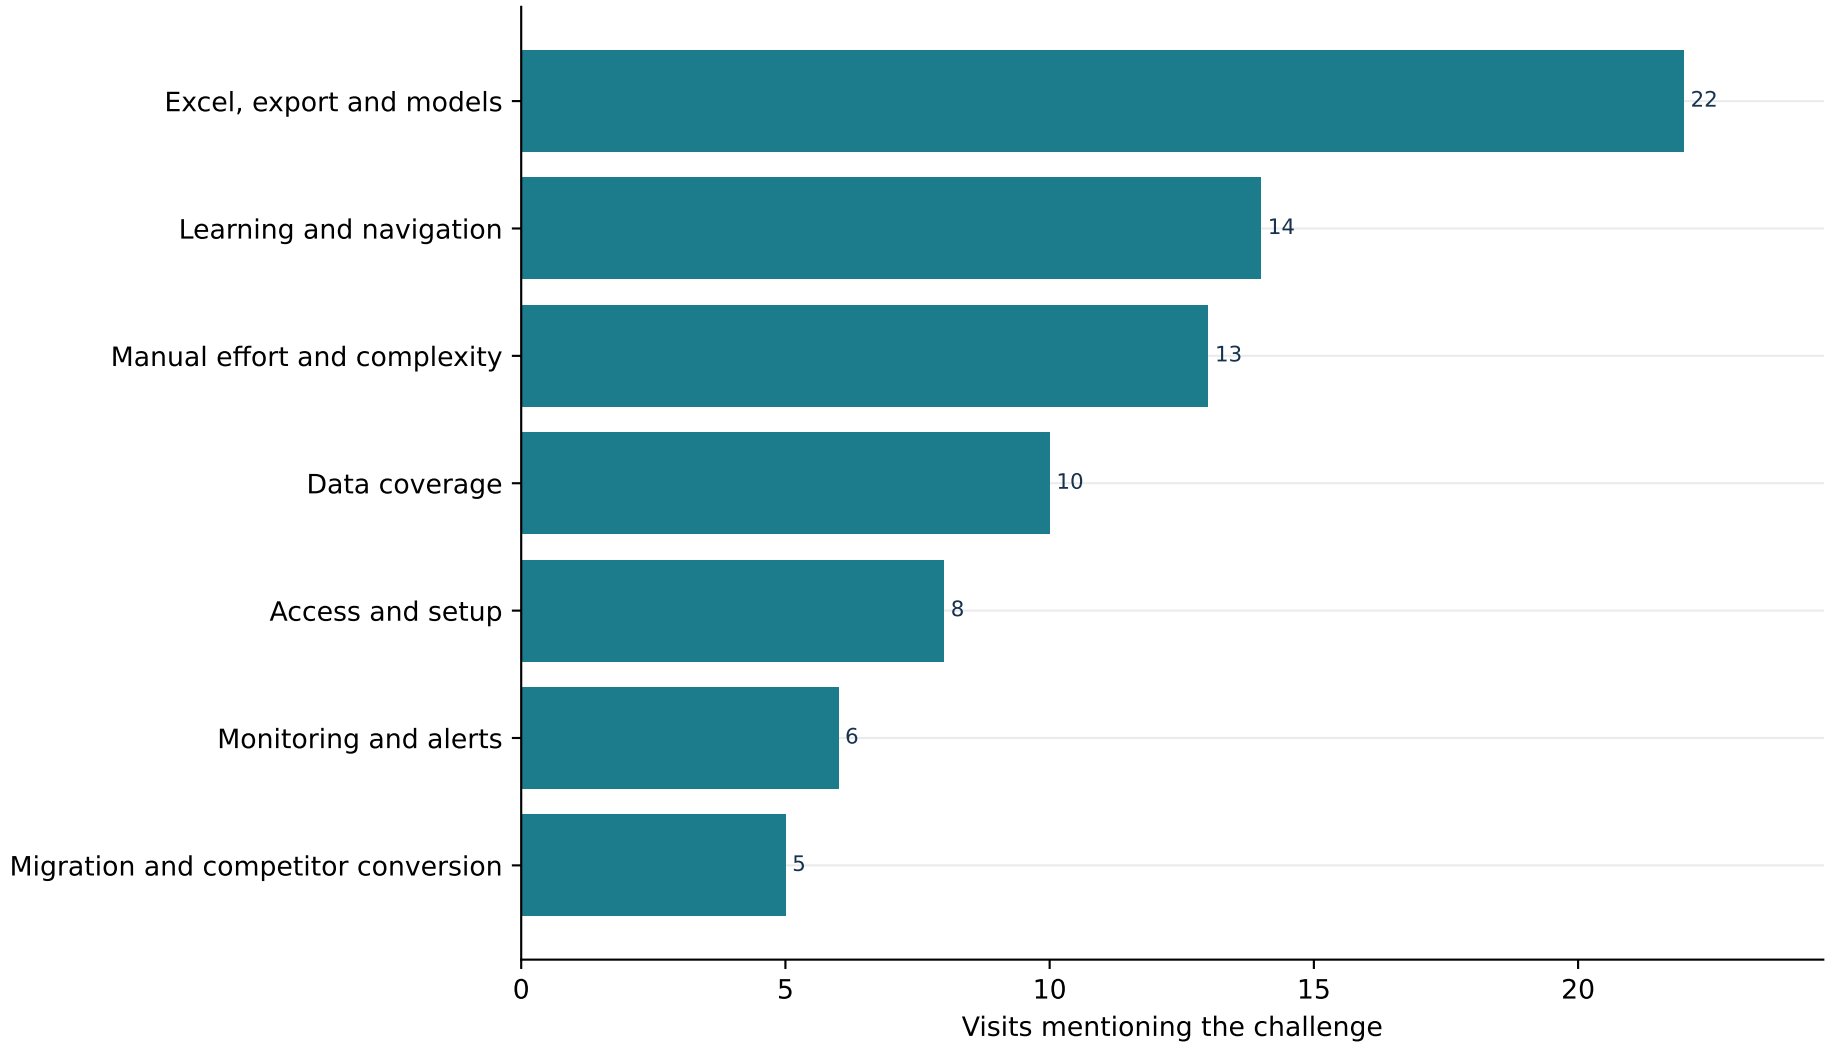

Classified from Solutions Discussed only. 10 of 220 visits have no classified topic. A visit can match several topics, so the bars are not a split of 100%.

Workflow challenges

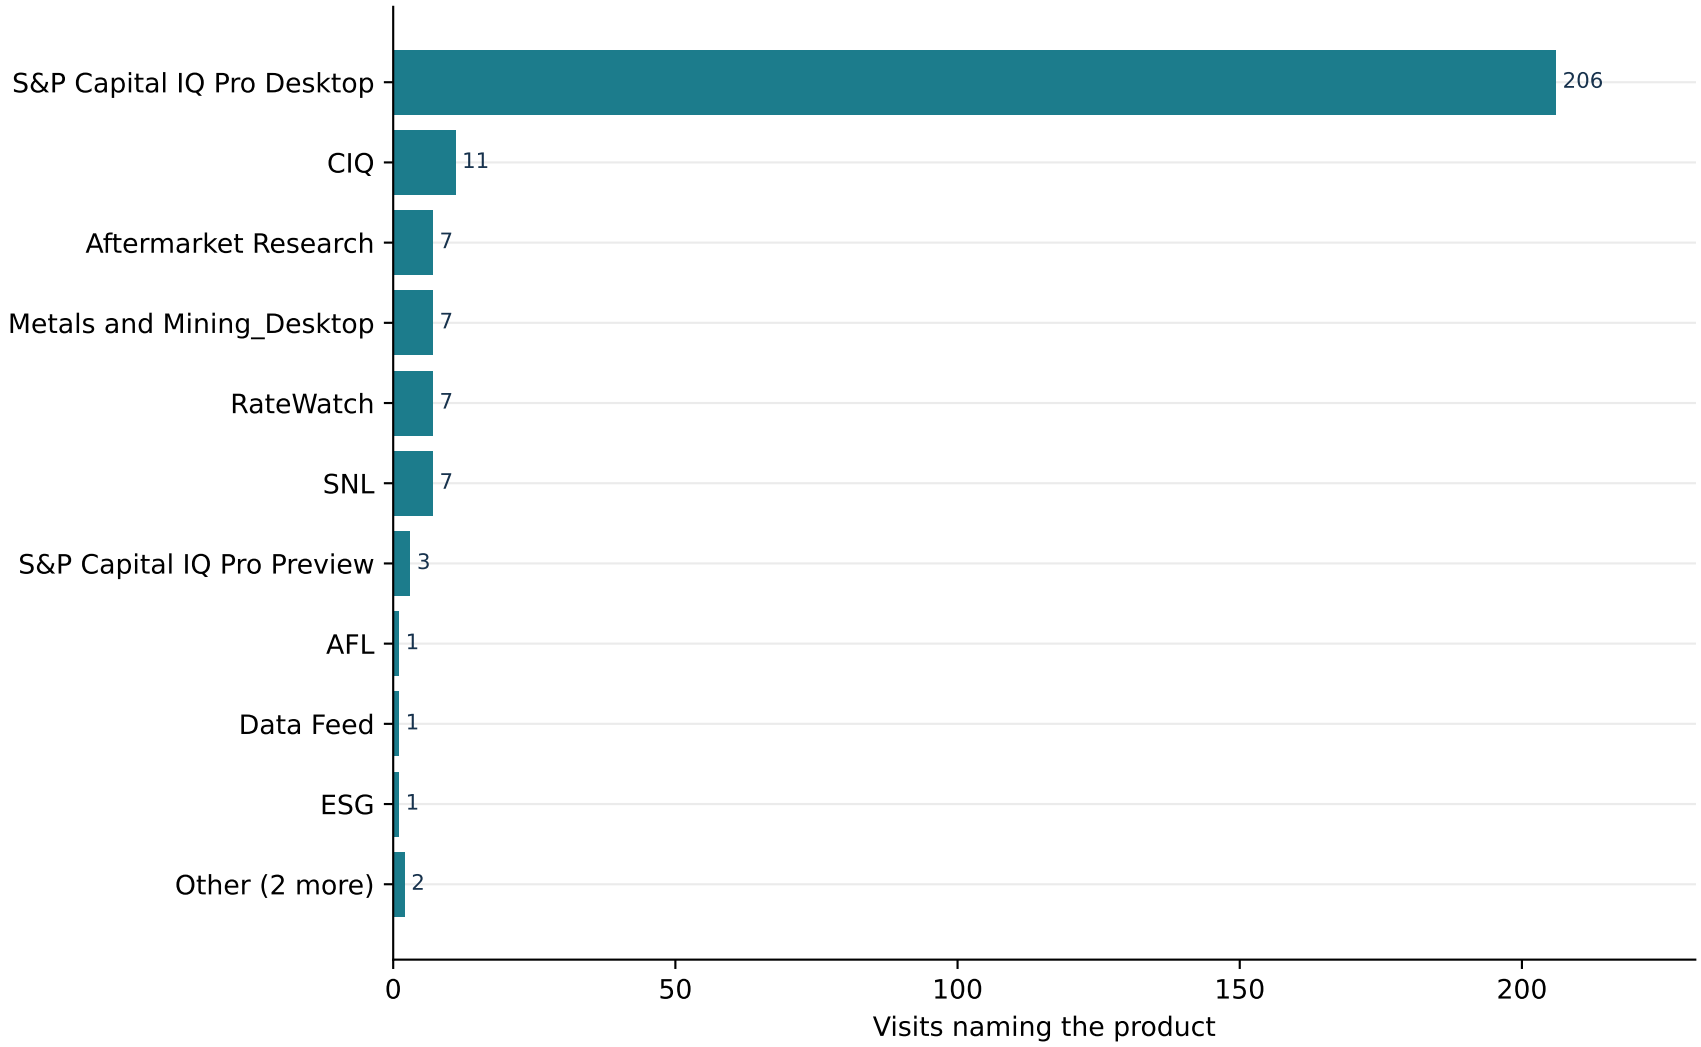

136 of 220 visits have no challenge note. 20 notes matched no theme. The bars count only matched themes, and one note can match more than one theme.

Products discussed

Each product named in Products Discussed is counted once per visit. A visit that names two products is in both bars.
