Manila visits over time

Coverage

576 dated visits from Jan 04, 2024 to Jun 30, 2026. 2024: 289. 2025: 220. 2026 (January–June): 67.

Gaps

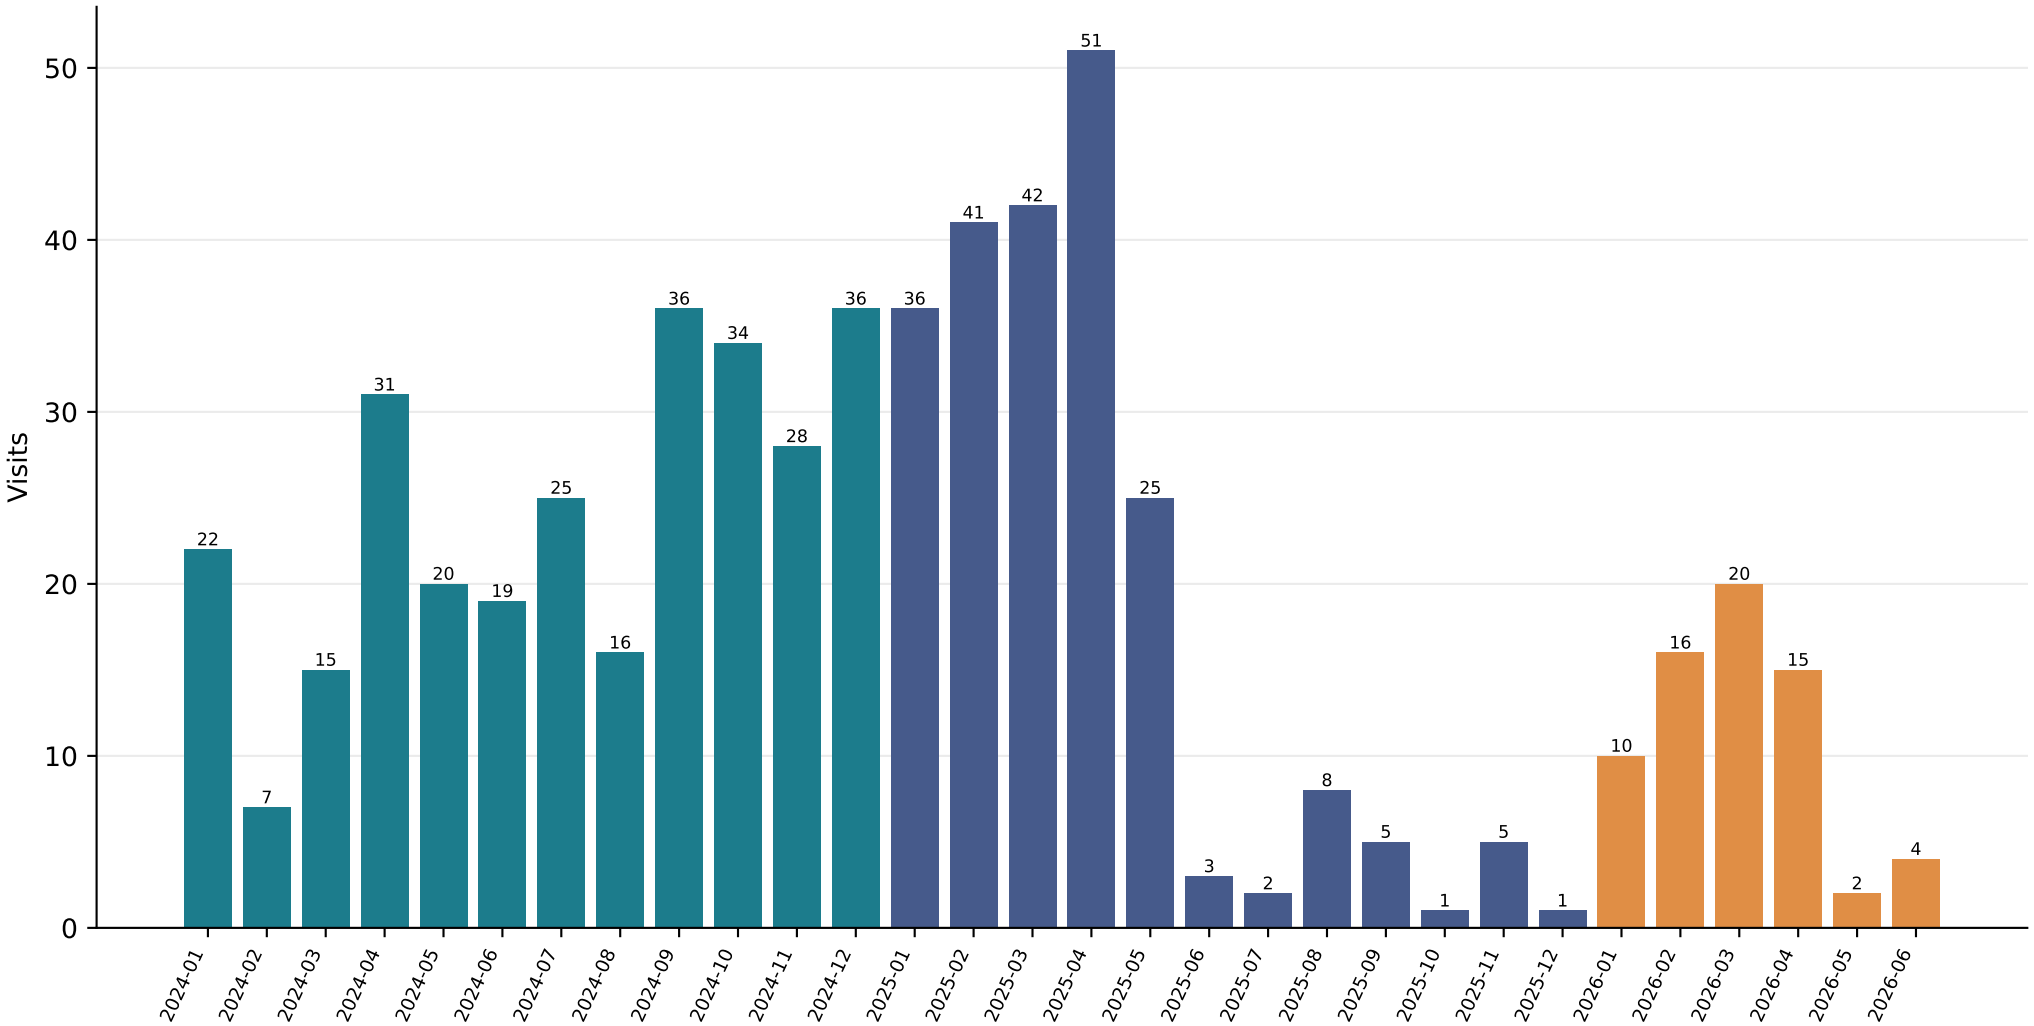
Every month from the first visit through the last visit has at least one record. Partial coverage: 2026 (January–June). Later months are not in the file and are not plotted as zero.

Solution topics

A visit counts once for each matched topic in Solutions Discussed. The topic chart shows the eight topics with the most visits across the whole span.

Monthly visit volume

Jan 2024 through Jun 2026. Partial coverage: 2026 (January–June). Later months are not in the file and are not plotted as zero.



Every month from the first visit through the last visit has at least one record.

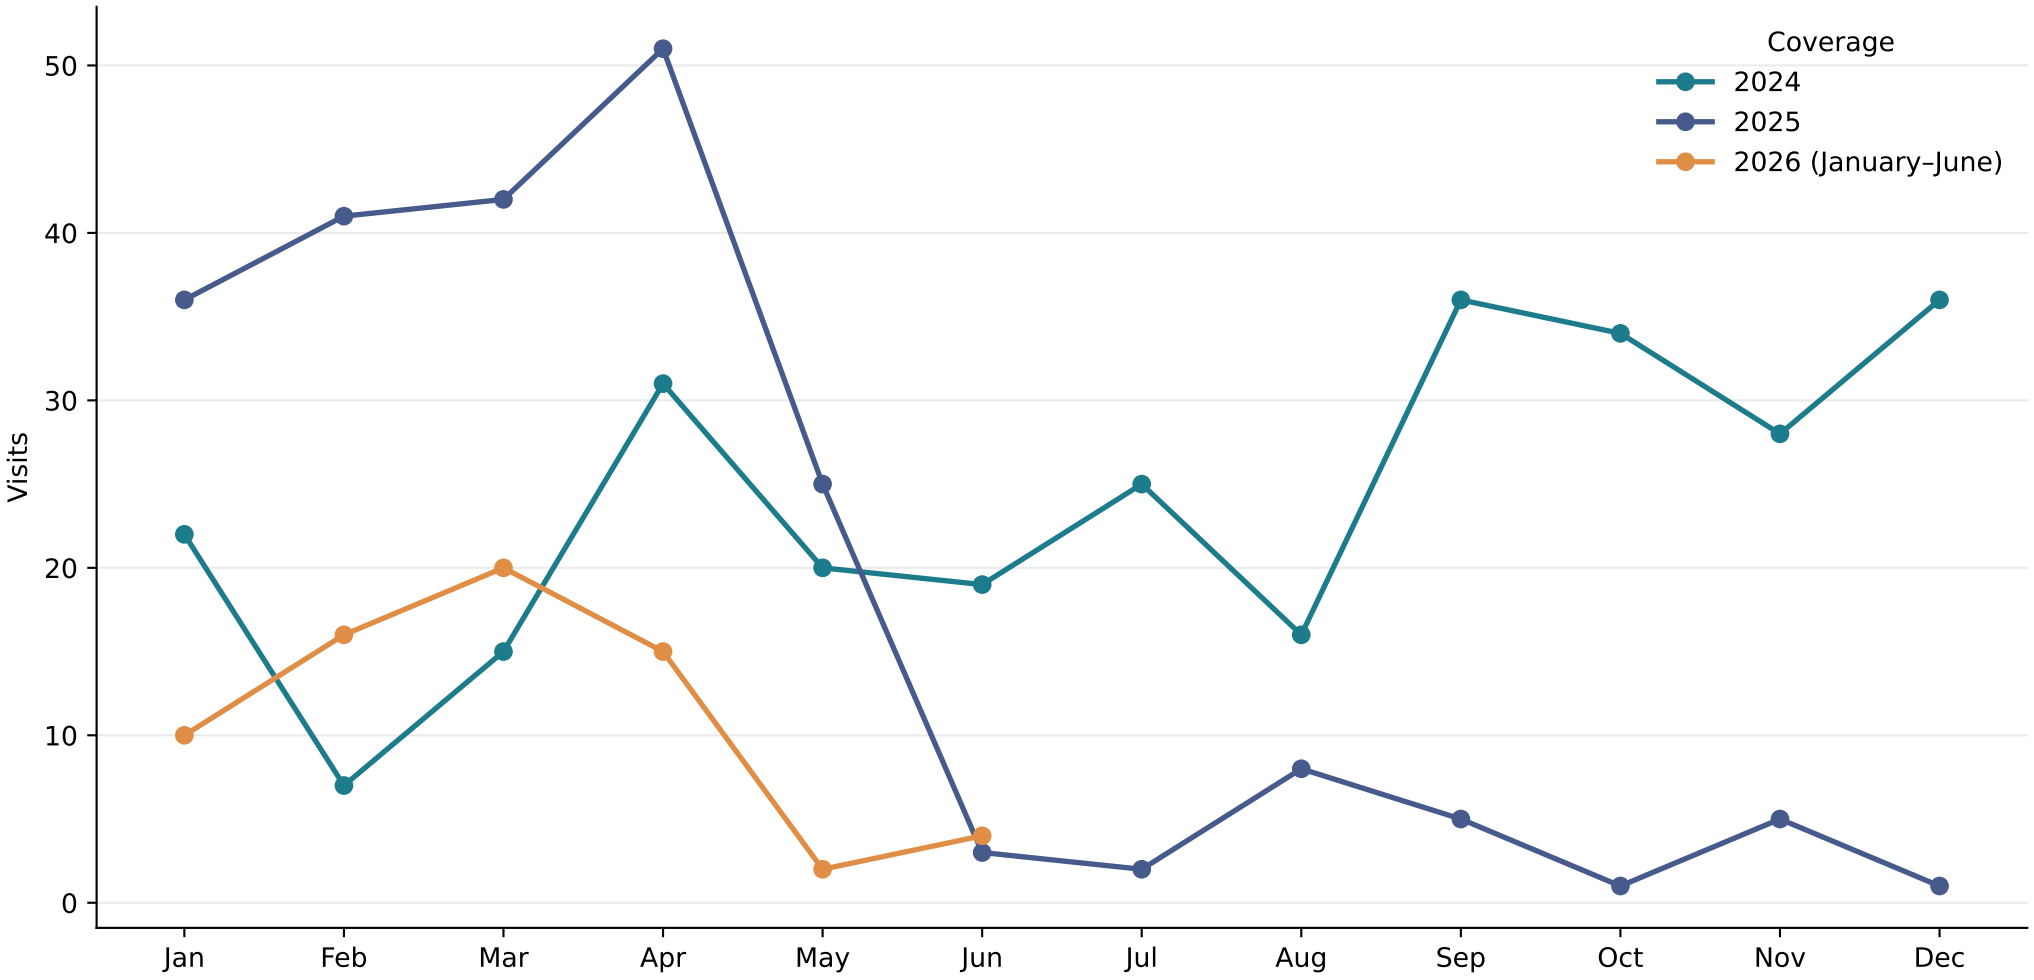
Same month compared across years

Each line is one calendar year. A year stops where its file stops. A gap in recorded months breaks the line.



Partial coverage: 2026 (January–June). Later months are not in the file and are not plotted as zero.

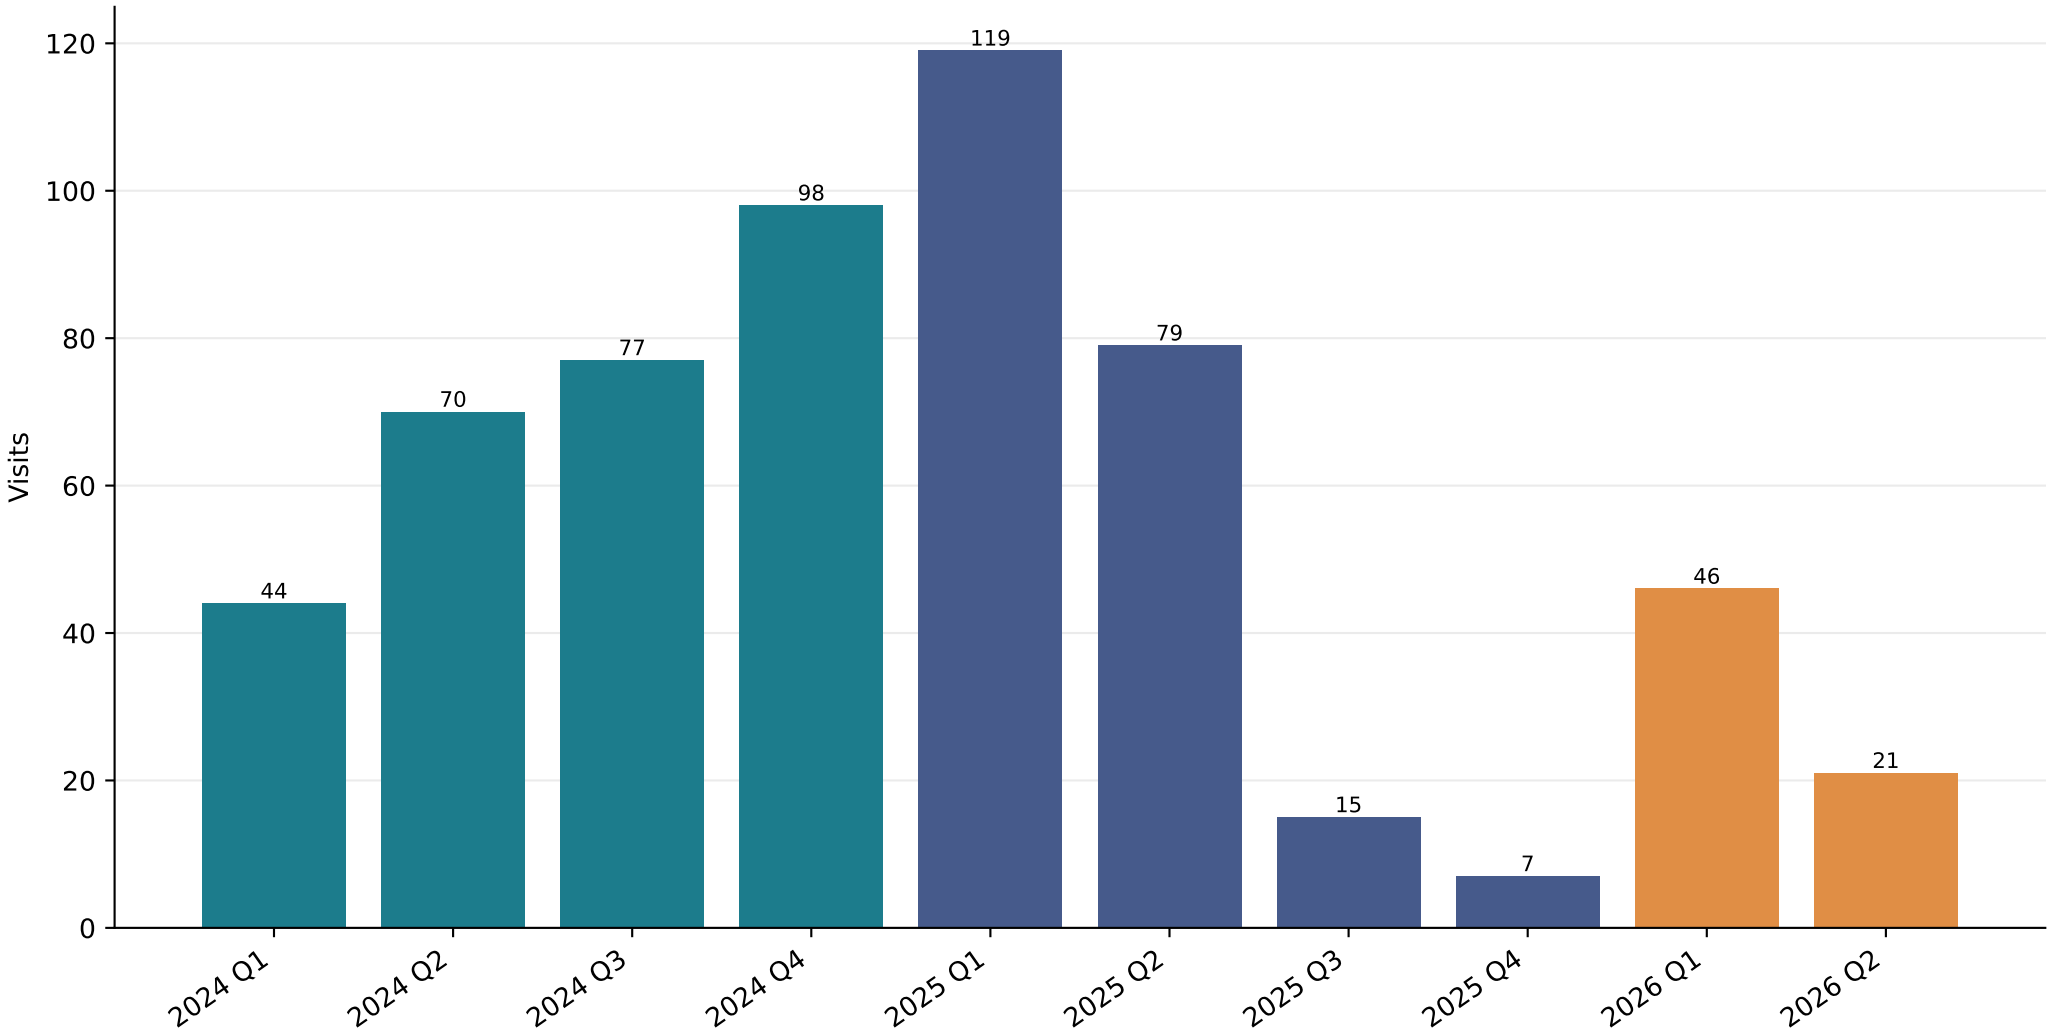
Quarterly visit volume

Only quarters with at least one visit are shown.

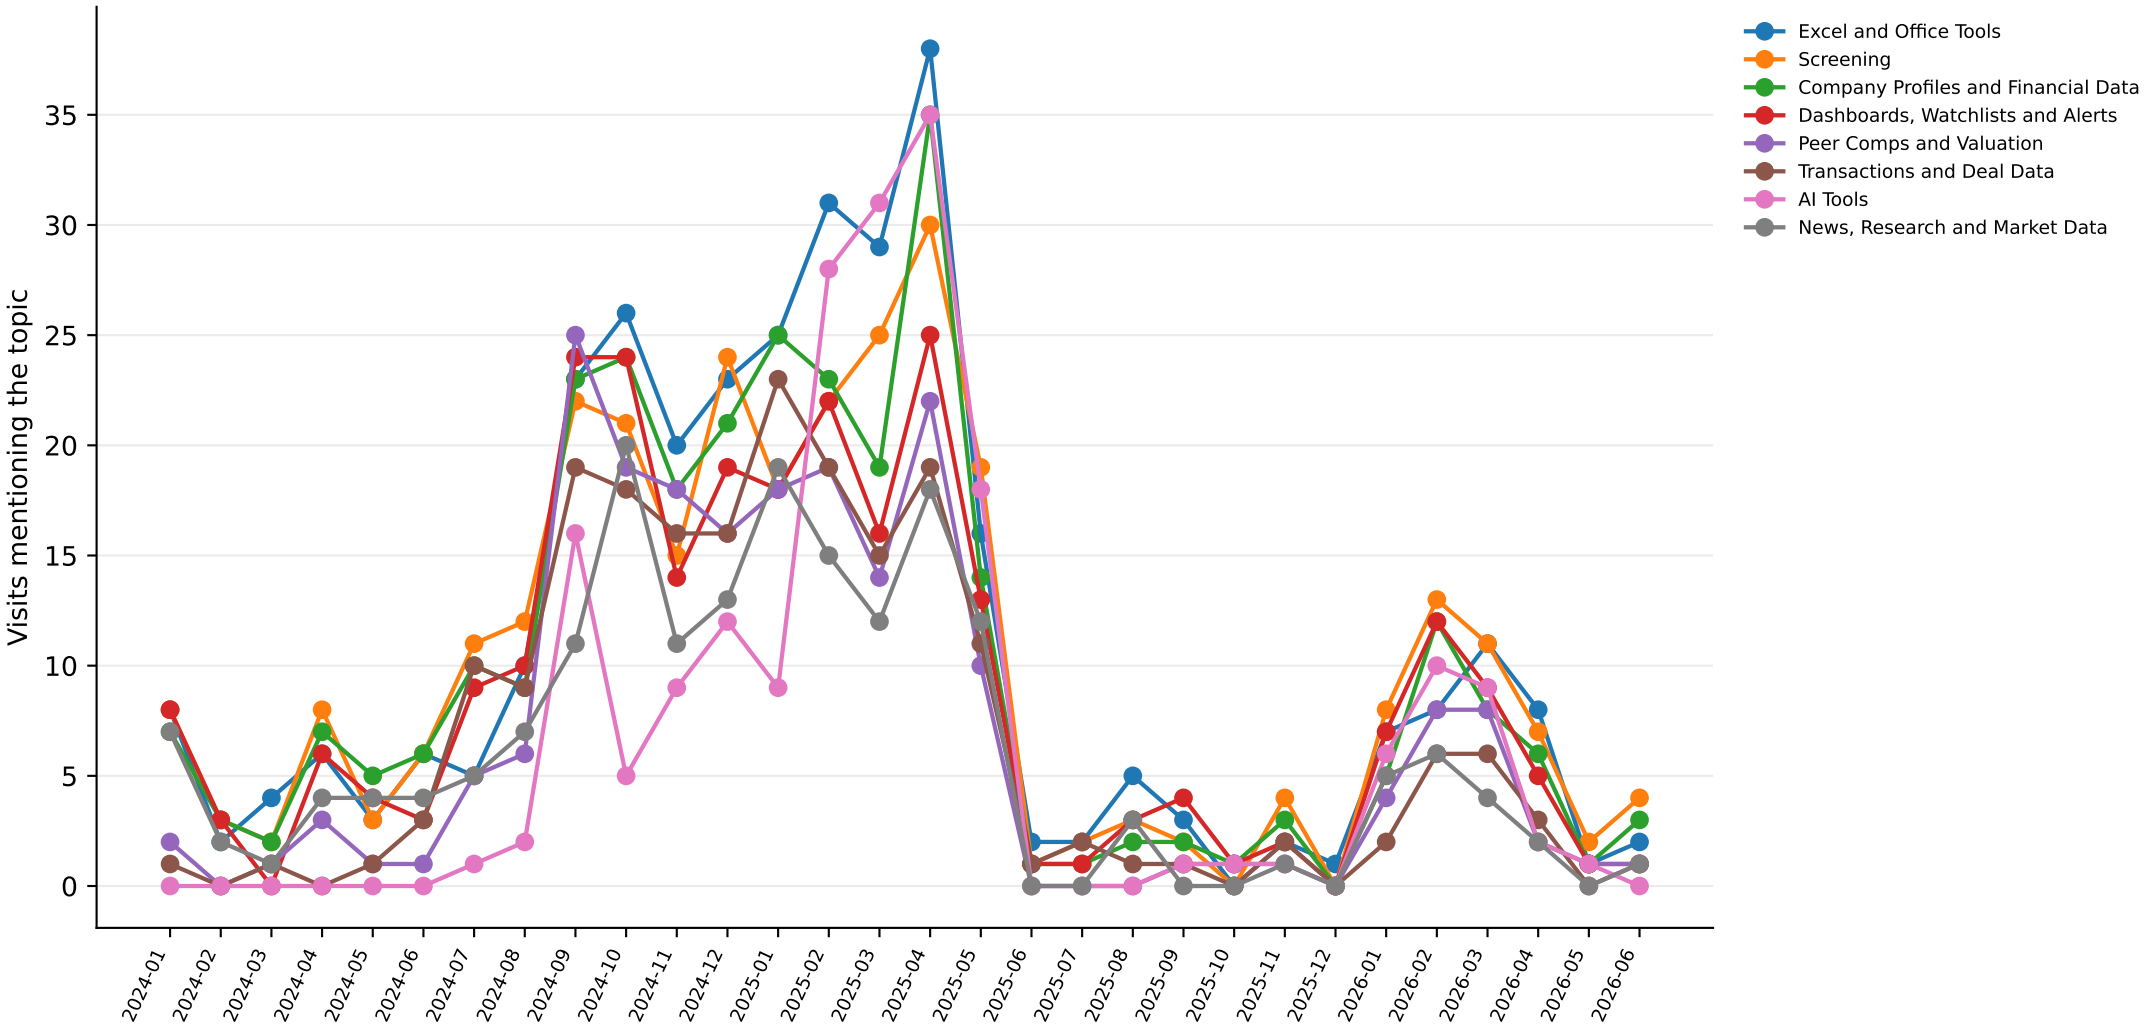


Partial coverage: 2026 (January–June). Later months are not in the file and are not plotted as zero.

Source: Manila visit workbooks. Counts follow the field named on each page.

Solution topics over time

Monthly visits for the eight most mentioned solution topics. A month with visits but no mention of that topic is zero. A month with no visits is a gap.



Topics are not exclusive. One visit can contribute to more than one line.
